

CASE STUDY

Maintaining Consistent Growth for SAE International Through Our Long-Term Partnership

Warrendale, PA

INTRODUCTION

SAE International is a global association based in Warrendale, Pennsylvania that is committed to being the ultimate knowledge source for the engineering profession. By uniting thousands of engineers and technical experts, they drive knowledge and expertise across a broad spectrum of industries, working namely in the autonomous vehicle and robotics sectors. SAE has two missions: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering.

SAE CHALLENGES

As a company that works in a constantly evolving industry, SAE needs to remain on the cutting edge of technology and engineering advancements. To achieve this and remain competitive within the industry, they need to consistently be recruiting top talent and highly qualified individuals.

SAE sought out assistance and expertise from OpenArc to incorporate our information-specific staffing services into their hiring process to ensure they're connecting with ideal candidates for their growing list of engineering needs.

OPENARC SOLUTION

OpenArc understood the goals and mission of SAE and came prepared with the tools to help them come to fruition. By leveraging the technical and cultural needs of this company, OpenArc utilized its network of highly vetted and diverse talent and behavior-based interview tactics to find the most qualified and appropriate individuals to fulfill SAE's staffing requirements.

OpenArc alleviated this challenge from SAE by tackling the recruitment process and presenting the potential employees to our partner. Upon selection, we'd then handle the interview coordination as well. Once a person was selected to be offered a position, we'd ensure that the final hiring and paperwork steps were completed in a smooth and efficient fashion, so new employees could start soon as possible.

RESULTS

Over the past three years, OpenArc has worked alongside SAE to facilitate its growth and nurture its company mission. We've successfully provided over 50 top-tier individuals to fulfill various positions for SAE, and they've been able to maintain this talent and continuously acquire more employees as business needs grow as a direct result of our strategic partnership.

ABOUT US

OpenArc is a staffing and custom software consultancy that turns vision into execution. We bridge the gap between ambitious goals and real-world results by pairing organizations with top-tier talent and building high-impact custom software. Driven by deep industry acumen and a consultative approach, we deliver specialized staffing, career advisory for high-demand professionals, and end-to-end software design and development.
